

Notice of Public Hearing

THE GLOUCESTER HOUSING AUTHORITY invites all tenants and the general public to a review of the Authority's Proposed Annual Plan for Fiscal Year 2027

The Annual Plan is intended to provide insight into the Authority's operations and plans for the coming fiscal year as they affect the Authority's state-aided public housing. The Proposed Annual Plan is comprised of the following elements:

1. Proposed Capital Improvement Plan (3-year)
2. Proposed Maintenance and Repair Plan
3. Current Operating Budget
4. Responses to the Performance Management Review (PMR) findings
5. List of housing authority policies
6. List of waivers from governing regulations of the Executive Office of Housing and Livable Communities (EOHLC)
7. Other elements

Hearing time and date: 4:30 PM on 7/8/2026

Hearing location: Lower Conference Room
259 Washington Street
Gloucester, MA 01930

Residents and the general public are invited to review the Annual Plan before the hearing and may submit public comments as noted below. The Authority shall consider the concerns of any Local Tenants' Organization (LTO) or Resident Advisory Board (RAB) regarding needs and priorities and incorporate some or all of such needs and priorities in the draft plan if deemed by the Authority to be consistent with sound management. Substantive comments will be summarized and included in the Annual Plan when it is submitted to the Executive Office of Housing and Livable Communities (EOHLC).

- o Copies of the Annual Plan are available at the Authority's office or may be reviewed online at <https://publichousingfacilityreview.mass.gov/Public?ap=181>
- o Comments may be submitted orally at the hearing, by emailing the housing authority office, or by submitting written comments at the housing authority office. Comments must be received no later than the close of the public hearing.
- o For reasonable accommodation requests contact the housing authority office by 6/24/2026 at 4:00 PM

Detailed Instructions for Remote Access

GLOUCESTER HOUSING AUTHORITY
Proposed Annual Plan for Fiscal Year 2027
For State-Aided Public Housing

The Annual Plan is a document compiled by housing authority staff in advance of each new fiscal year. The plan serves as both a tool for the Local Housing Authority (LHA) to reflect upon the prior fiscal year, and as an opportunity to develop a clear and transparent plan that builds on successes, identifies needs, and corrects any issues that have arisen in prior years. Additionally, the Annual Plan is an important tool for tenants, who may use the document to better understand the operations and needs of their housing authority, advocate for changes to policies and procedures, access data about the housing authority, and participate in their housing authority's governance.

In addition to the physical document, the Annual Plan is also a process of public engagement. Throughout the Annual Plan process, the LHA executive director or their designee will be expected to review the Plan with any Local Tenant Organizations (LTO's) and Resident Advisory Board (RAB) before the LHA presents the plan to the LHA Board of Commissioners; make a draft available for review to all residents and the general public; post on the website and make a copy available to each LTO at least 30 business days before the public hearing; hold a hearing on the document; and collect, integrate, and report back on substantive comments. Additionally, the Board will read, offer recommendations, and approve the Annual Plan in advance of its submission to EOHL.

The law that mandates the Annual Plan is [An Act Relative to Local Housing Authorities, Massachusetts General Laws, Chapter 121B Section 28A](#). The regulation that expands upon Section 28A is 760 CMR 4.16. The regulations that address Local Tenant Organization (LTO) and resident participation in the Annual Plan are 760 CMR 6.09 (3)(h) and 760 CMR 6.09(4)(a)(4).

The GLOUCESTER HOUSING AUTHORITY's Annual Plan for their 2027 fiscal year includes the following components:

1. Overview and Certification
2. Capital Improvement Plan (CIP)
3. Maintenance and Repair Plan
4. Operating Budget
5. Narrative responses to Performance Management Review (PMR) findings
6. Policies
7. Waivers
8. Glossary
9. Other Elements, which may include:
 - a. Approval documents and any Public Comments
 - b. Tenant Satisfaction Survey
 - c. Performant Management Review report
 - d. Other documents added by LHA

State-Aided Public Housing Developments

The following table identifies the state-aided public housing units with developments of more than 8 units listed separately. Units in developments of 8 or fewer units are aggregated as noted. Units that the LHA provides to assist clients of the Department of Mental Health (DMH), the Department of Developmental Services (DDS), or other agencies are also aggregated separately.

Dev No	Type	Development Name	Num Bldgs	Year Built	Dwelling Units
667-06	Elderly	CURTIS B. CLARK	1	1983	56

	Other	Other Special Occupancy units	1		8
Total			95		530

Massachusetts Rental Voucher Program (MRVP)

The Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals. In most cases, a “mobile” voucher is issued to the household, which is valid for any market-rate housing unit that meets the standards of the state sanitary code and program rent limitations. In some cases, vouchers are “project-based” into a specific housing development; such vouchers remain at the development if the tenant decides to move out.

GLOUCESTER HOUSING AUTHORITY manages 42 MRVP vouchers.

Federally Assisted Developments

GLOUCESTER HOUSING AUTHORITY also manages Federally-assisted public housing developments and/or federal rental subsidy vouchers serving 779 households.

E.	Hold quarterly meeting with LTO or RAB to review the draft AP. (Must occur before the LHA Board reviews the Annual Plan.)	
F.	Annual Plan Hearing. Hosted by the LHA Board, with a quorum of members present. (For Boston, the Administrator will host the hearing.)	
G.	Executive Director presents the Annual Plan to the Board.	
H.	Board votes to approve the AP. (For Boston Housing Authority, the Administrator approves and submits the AP.)	

This Annual Plan (AP) will be reviewed by the Executive Office of Housing and Livable Communities (EOHLC) following the public comment period, the public hearing, and LHA approval.

Capital Improvement Plan (CIP) Description

What Is the Capital Improvement Plan?

The Capital Improvement Plan (CIP) is a five-year plan that outlines major repairs and improvements to housing authority properties. It describes each project's scope, estimated cost, and timeline, while reflecting the Local Housing Authority's prioritization of its most critical needs, particularly those related to resident health and safety. The plan also identifies how projects may be funded and when they are anticipated to take place, based on the Massachusetts Executive Office of Housing and Livable Communities (EOHLC) fiscal year (July 1 through June 30).

How Projects Are Funded Each Year

Each year, every Local Housing Authority (LHA) receives a Formula Funding Award from EOHLC. This annual award provides the primary source of funding for new projects included in the CIP. While funding levels may vary, it is generally reasonable to anticipate that similar award amounts will be available over the next two years, which helps inform project planning and scheduling. LHAs may also apply for additional "special awards" from EOHLC for specific projects that meet certain criteria, such as emergency repairs, regulatory compliance, or energy and water conservation improvements.

Why Plans and Costs May Change

The CIP is a planning document and must be submitted to EOHLC for review and approval. While the plan reflects current cost estimates, project budgets often increase between the time they are planned and when construction begins. As a result, available funding may not go as far as originally anticipated, and some projects may need to be adjusted, delayed, or completed in phases.

Why Project Schedules Can Shift

Because the CIP is updated each year, project schedules and priorities may change over time. In particular, previously unidentified conditions or urgent repair needs may arise after the plan is developed; due to their impact on health, safety, or building integrity, these issues may take precedence over projects that were previously scheduled. When this occurs, the plan may be updated through CIP Revision.

To better understand how a plan has changed—including which projects were advanced, delayed, or added—it is helpful to compare the current year's CIP with the prior year's CIP. This comparison can show how EOHLC funding decisions and plan revisions have affected project timing and priorities.

Other Funding Sources

LHAs may sometimes secure other sources of funding and assistance that you will note in their CIP, such as: Community Preservation Act (CPA) funding, Community Development Block Grant (CDBG) funding, Local Affordable Housing Trust Funds (AHTF), HOME grants, income from leasing a cell tower on their property, savings from net meter credit contracts with solar developers, utility rebates and contracted work from utility providers. However, not all of these funding sources are available every year, or in all communities.

The CIP includes the following parts:

1. A list of existing projects approved in last year's CIP Plan or added to the plan through CIP Revision during the year.
2. A list of planned capital projects showing spending per fiscal year.
3. 'Narrative Questions' with a variety of additional information.

The 'Narrative Questions' with Additional Information

1. Project Closeout

Have you reviewed in progress projects, contacted your PM to close out old projects, and recirculated unused funds? Please explain why or why not.

Answer: Yes

Explanation: We believe 107140, 107113, and 107134 these three are all completed and should be closed. All three are HLC managed projects.

2. Request for Additional Funding

Request additional funding from EOHLC by going to the project's detail page and adding a comment that includes the funding type and requested amount. Upload any relevant attachments at the bottom of this form. Do not include requests already approved in your latest CIP.

3. Overall Goals of the Capital Improvement Plan

What do you plan to achieve with this year's CIP plan and how do the projects you've selected support this goal?

Explanation: The projects I have chosen are all needed projects. The sewer line replacement in Riverdale (200-1) is an emergency project that needs to be addressed as soon as possible. Some of the sewers were scheduled to be addressed in project 107137, however it is too much for that project to take on and needs to be its own funded project. The furnace replacements in both Hillcrest (689-1) and Riverdale (200-1) are to remove gas fired furnances and replace with ASHP's. The Hillcrest heating system has reached the end of its useful life. In Riverdale, these units are also reaching the end of their useful lives, and two phases are currently in progress.

4. Changes from the Previous CIP

Aside from completing projects that were listed in your previous CIP and adding new projects in the new planning year(s), in what way does your new CIP differ from your previous CIP?

Explanation: Last year, because it was a 5-year CIP, we also included phase 2 and 3 of the Riverdale windows. They are not included because this is a 3-year plan.

5. Requirements from previous CIP approval

A. Approval Requirements

Did your previous CIP Approval Letter include conditions to be satisfied when implementing the CIP projects or conditions to be included in your new CIP?

Answer: No

6. Project Priorities

Does your CIP only include high priority capital projects (Priority 1 and 2 projects)? If no, explain your rationale for including lower priority projects.

Answer: Yes

7. High Priority Deficiencies

Are there any high priority capital deficiencies (priority 1 or 2 projects) in your CPS Backlog that you could not fit in your year 1 or 2 CIP plan? If yes, provide an explanation and the plan to address the deficiencies. Make sure to go through the CPS Backlog and update priorities when necessary.

Answer: Yes

Explanation: We have six high priority projects left. The hope is that we will be able to complete them in future years as money becomes available.

8. Accessibility

Are you aware of any accessibility deficiencies in your portfolio (units, common areas, and sites)? If yes, describe the deficiencies and list the projects in this CIP that will address them.

Answer: Yes

Explanation: We currently have no accessible units in Riverdale (200-1), however the development is in need of other upgrades. Hope to address in the future.

9. Special Needs Development

A. DMH/DDS Developments

LHAs must meet with each service provider on an annual basis to discuss the physical condition and necessary repairs of each of the DDS/DMH developments (167 or 689). Does your LHA have one or more DDS/DMH developments? If yes, provide details from the service provider input.

Answer: Yes

B. DMH/DDS Projects

Does your plan include projects for the DMH/DDS developments recommended by this service provider? If no, provide an explanation. Include input from the service provider staff for expanding the DMH/DDS set aside.

Service Provider Input Completion Date: 08/01/2025

Answer: Yes

10. Sustainability Program

Are you requesting Sustainability Funding for any of your projects?

Answer: Yes

If yes, have you engaged with the [Mass Save Low Income](#) (LEAN) Program? If no, please explain why not?

Answer: Yes

11. Solar Initiatives

Does your current CIP contain roof replacement projects?

Answer: No

12. Resilience

Are any of your developments flagged for weather vulnerabilities in CPS? For example, sea-level rise/storm surge, rainfall flooding, and extreme heat.

Answer: Yes

If yes, do the projects in this CIP planned at these developments incorporate resilient design elements into the initial design plans and costs? If no, please explain.

Answer: Yes

13. Fossil Fuels

PHN 2024-11 stipulates that EOHLC Capital Funds cannot be used to install new fossil fuel-fired equipment, barring a few exceptions. This includes natural gas, propane, and heating oil.

Will fossil fuel-fired equipment be installed as a part of any project in this CIP?

Answer: No

14. Vacant Units

Please list the projects in this CIP submission that are tied to reoccupying vacant units. If there are none, write none.

Explanation: None

15. EOHLC/RCAT Assistance

Has EOHLC or RCAT staff provided you with assistance developing this CIP? If yes, who were the EOHLC or RCAT staff involved?

Answer: No

16. Certification Statement

I certify that this is the complete and accurate list of projects that I will be submitting to the Board for approval as part of the Annual Plan process.

If there are any additions, deletions, or modifications to this list of projects resulting from the Board or LTO/public meeting, I will promptly notify my EOHLIC Project Manager and RCAT Project Manager and make the necessary changes.

Answer: Yes

Maintenance and Repair Plan

Maintenance Objective

The goal of good property maintenance at a public housing authority is to serve the residents by assuring that the homes in which they live are decent, safe, and sanitary.

About This Maintenance and Repair Plan

This Maintenance & Repair Plan consists of several subsections describing maintenance systems followed by charts showing typical preventive maintenance, routine maintenance, and unit inspection tasks and schedules. These subsections are:

- a. **Classification and Prioritization of Maintenance Tasks** - Defines and prioritizes types of work to be accomplished by maintenance staff and vendors. Explains how the housing authority is expected to respond to work orders (tasks or requests) based on the work order classification.
- b. **Emergency Response System** - Defines what constitutes an emergency and how to notify staff of an emergency.
- c. **Normal Maintenance Response System** - How to contact the maintenance staff for a non-emergency request.
- d. **Work Order Management** - Description of the housing authority's system for managing work orders (tasks and requests).
- e. **Maintenance Plan Narrative & Policy Statement** - Self-assessment, basic information, and goals for the coming year, along with a description of the housing authority's maintenance program.
- f. **Preventive Maintenance Schedule** - A listing and schedule of tasks designed to keep systems and equipment operating properly, to extend the life these systems and equipment, and to avoid unexpected breakdowns.
- g. **Routine Maintenance Schedule** - A listing and schedule of ordinary maintenance tasks such as mopping, mowing, raking, and trash collection required to keep the facilities in good condition.
- h. **Unit Inspections** - Scheduling of annual unit inspections.

Classification and Prioritization of Maintenance Tasks

Maintenance items are tracked as “work orders” and are classified in the following categories. They are prioritized in the order listed. The following classifications and prioritization are required by the Executive Office of Housing and Livable Communities (EOHLC).

- I. **Emergencies** - Emergencies are only those conditions which are **immediately threatening** to the life or safety of our residents, staff, or structures.
 - Goal: initiated with 24 to 48 hours.
- II. **Vacancy Refurbishment - Work necessary to make empty units ready for new tenants.**
 - After emergencies, the refurbishment of vacancies for immediate re-occupancy has the highest priority for staff assignments. **Everyday a unit is vacant is a day of lost rent.**
 - **Goal: vacancy work orders are completed within 30 calendar days or if not completed within that timeframe, LHA has a waiver.**
- III. **Preventive Maintenance** - Work which must be done to **preserve and extend the useful life** of various elements of your physical property and avoid emergency situations.
 - A thorough Preventive Maintenance Program and Schedule that deals with all elements of the physical property is provided later in the document.
 - The Preventive Maintenance Program is reviewed and updated annually and as new systems and facilities are installed.
- IV. **Programmed Maintenance** - Work which is important and is completed to the greatest extent possible within time and budget constraints. Programmed maintenance is grouped and scheduled to make its completion as efficient as possible. Sources of programmed maintenance include:
 - Routine Work includes those tasks that need to be done on a regular basis to keep our physical property in good shape. (Mopping, Mowing, Raking, Trash, etc.)
 - Inspections are the other source of programmed maintenance.
 - ◇ Inspections are visual and operational examinations of parts of our property to determine their condition.
 - ◇ All dwelling units, buildings and sites must be inspected at least annually.
 - ◇ **Goal: Inspection-generated work orders are completed within 30 calendar days from the date of inspection, OR if cannot be completed within 30 calendar days, are added to the Deferred Maintenance Plan or the Capital Improvement Plan in the case of qualifying capital repairs (unless health/safety issue).**
- V. **Requested Maintenance** - Work which is requested by residents or others, does not fall into any category above, and should be accomplished as time and funds are available.
 - Requests from residents or others for maintenance work which does not fall into one of the other categories has the lowest priority for staff assignment.
 - **Goal: Requested work orders are completed in 14 calendar days from the date of tenant request or if not completed within that timeframe (and not a health or safety issue), the task is added and completed in a timely manner as a part of the Deferred Maintenance Plan and/or CIP.**

List of Emergencies - Emergencies are those conditions which are immediately threatening to the life or safety of our residents, staff, or structures. The following is a list of typical conditions that warrant an emergency response. If there is an emergency condition whether or not enumerated on this list please notify the office or answering service at the numbers listed above. If you have any questions regarding this list or other matters that may constitute an emergency, please contact the GLOUCESTER HOUSING AUTHORITY main office.

QUALIFYING EMERGENCY WORK REQUESTS
Fires of any kind (Call 911)
Gas leaks/ Gas odor (Call 911)
No electric power in unit
Electrical hazards, sparking outlets
Broken water pipes, flood
No water/ unsafe water
Sewer or toilet blockage
Roof leak
Lock outs
Door or window lock failure
No heat
No hot water
Snow or ice hazard condition
Dangerous structural defects
Inoperable smoke/CO detectors, beeping or chirping
Elevator stoppage or entrapment
Biohazard in common area
Unsecured apartment or common area
Inoperable refrigerator

Work Order Management

- A. EOHLC review of this housing authority's operations shows that the authority uses the following system for tracking work orders: PHA Web
- B. We do track deferred maintenance tasks in our work order system.
- C. Our work order process includes the following steps:

Step	Description	Checked steps are used by LHA
1	Maintenance Request taken/submitted per the standard procedures listed above for the Emergency Request System and the Normal Maintenance Request Process.	<input checked="" type="checkbox"/>
2	Maintenance Requests logged into the work system	<input checked="" type="checkbox"/>
3	Work Orders generated	<input checked="" type="checkbox"/>
4	Work Orders assigned	<input checked="" type="checkbox"/>
5	Work Orders tracked	<input checked="" type="checkbox"/>
6	Work Orders completed/closed out	<input checked="" type="checkbox"/>
7	Maintenance Reports or Lists generated	<input checked="" type="checkbox"/>

- D. Additional comments by the LHA regarding work order management:

Maintenance Plan Narrative

Following are GLOUCESTER HOUSING AUTHORITY’s answers to questions posed by EOHLIC.

- A. Narrative Question #1: How would you assess your Maintenance Operations based on feedback you’ve received from staff, tenants, EOHLIC’s Performance Management Review (PMR) & Agreed Upon Procedures (AUP), and any other sources?

The Operations Department of the GHA is responsible for managing all maintenance functions of the agency in the most cost-effective manner while maximizing the useful life of GHA properties and providing the best service to GHA residents. The GHA's PMR & AUP had no findings or comments related to our maintenance activities and we receive ongoing compliments from residents concerning the quality of work and courtesy of our staff. Our most recent tenant satisfaction survey indicated that 94% of the respondents felt they were treated with courtesy and respect when they were contacted by maintenance.

- B. Narrative Question #2: What changes have you made to maintenance operations in the past year?

This past year GHA hired a licensed electrician as part of the maintenance team. This has made a large difference in our ability to respond to and repair electrical issues in house. Also, the separation of our capital program from the day-to-day maintenance operations has made project management much easier and has provided better information to the Executive Director, staff, and tenants on capital improvements.

- C. Narrative Question #3: What are your maintenance goals for this coming year?

Major goals for FY 2027 include continued reduction in work order completion time and decreasing deferred work orders. The GHA will continue to strengthen unit turnover quality control, inspection processes and integrate additional preventative maintenance items at completion of each capital improvement project.

- D. Maintenance Budget Summary

The budget numbers shown below are for the consolidated budget only. They do not include values from supplemental budgets, if any.

	Total Regular Maintenance Budget	Extraordinary Maintenance Budget
Last Fiscal Year Budget	\$1,503,934.00	\$109,850.00
Last Fiscal Year Actual Spending	\$1,422,666.00	\$8,139.00
Current Fiscal Year Budget	\$1,566,090.00	\$121,500.00

E. Unit Turnover Summary

# Turnovers Last Fiscal Year	47
Average time from date vacated to make unit "Maintenance Ready"	12 days
Average time from date vacated to lease up of unit	96 days

F. Anything else to say regarding the Maintenance Plan Narrative?

Annual Operating Budget

The tables on the following pages show the approved budget and actual income and spending per budget account (row) for the fiscal year ending 6/30/2025. It also shows the approved budget for the current year (2025) if there is one, and the percent change from last year's spending to this year's approved budget. The final column shows the current approved amount for each account divided by the number of housing units and by 12 months to show the amount per unit per month (PUM). The chart does not show a draft budget for the coming fiscal year as that will typically be developed in the final month of the fiscal year.

The budget format and accounts are mandated by the Executive Office of Housing and Livable Communities (EOHLC). For a better understanding of the accounts and discussion of special situations see the notes following the budget tables and the "Definitions of Accounts" at the end of this section.

The LHA maintains a consolidated budget (400-1) for all state-aided 667 (Elderly), 200 (family), and 705 (scattered site family) developments owned by the LHA. It does not maintain separate budgets for each development.

Operating Reserve

The LHA's operating reserve is the amount of funds that an LHA sets aside to sustain itself during lean years, or to remedy urgent health and safety concern or address deferred maintenance items. In addition, while EOHLC approves a fixed non-utility operating budget level for every LHA (called the Allowable Non-Utility Expense Level, or ANUEL), LHAs can propose a budget that exceeds that level, with the additional cost to be funded from the Operating Reserve, as long as the reserve will still remain above the minimum threshold set by EOHLC.

EOHLC defines a full (100%) Operating Reserve (OR) amount to be equal to one-half of the previous year's operating expenses and requires LHAs to maintain a minimum OR of 35% of this amount to cover any unplanned but urgent needs that may arise during the year and that can't be funded by the operating budget. If the reserve is between 20% and 35% of the full level, the LHA must obtain prior written approval from EOHLC to spend reserve funds, unless the expense is to resolve a health and safety issue. If the reserve is below the 20% level, the LHA can only spend OR funds on health and safety issues. In both cases, the LHA should address the health and safety issue immediately but must retroactively inform EOHLC and obtain its approval.

The GLOUCESTER HOUSING AUTHORITY operating reserve at the end of fiscal year 2025 was \$1,094,162.00, which is 44.34% of the full reserve amount defined above.

Explanation of Budget Accounts

The following explains how each of the line items is to be prepared.

3110: Shelter Rent: The shelter rent projection should be based on the current rent roll plus anticipated changes expected from annual rent re-determinations or as a result of regulatory amendments.

3111: Shelter Rent – Tenants - Fraud/Retroactive: This account should be used for the reporting of total rent receipts from residents due to unreported income. These are often called fraud or retroactive balances. In cases where deficit LHAs discover, pursue cases, and have entered into a written fraud/retroactive repayment agreement **with a present or former tenant who did not report income**, the LHA will be allowed to retain two-thirds of the funds recovered. One third of the total dollar amount recovered should be included in the LHA's quarterly or year-end Operating Statement as Shelter Rent, account #3111, and two-thirds of this total dollar amount should be included in Other Revenue-Retained, account #3691.

3115: Shelter Rent - Section 8: This account applies only to those developments receiving support through the federal government's Housing and Urban Development (HUD) Section 8 New Construction and/or Substantial Rehab Programs.

3190: Non-Dwelling Rental: This account should be credited with the rents, other than tenants rents reported in line 3110 and 3115, including charges for utilities and equipment, billed to lessees of non-dwelling facilities as well as apartments rented for non-dwelling purposes, such as social service programs.

3400: Administrative Fee- MRVP/AHVP: This account should be credited with Administrative Fees to be received for the MRVP/AHVP Program. The MRVP/AHVP administrative fee is \$50.00 per unit per month, as of July 1, 2020.

3610: Interest on Investments – Unrestricted: This account should be credited with interest earned on unrestricted administrative fund investments.

3611: Interest on Investments – Restricted: This account should be credited with interest earned on restricted administrative fund investments. For example, an LHA may receive a grant whose use is restricted to a specific purpose, and the interest income earned on that grant may also be restricted to the same purpose.

3690: Other Operating Revenues: This account should be credited with income from the operation of the project that cannot be otherwise classified. Income credits to this account include, but are not limited to, penalties for delinquent payments, rental of equipment, charges for use of community space, charges to other projects or programs for the use of central office management and maintenance space, commissions and profits from vending machines, including washing machines, and certain charges to residents for additional services, materials, and/or repairs of damage caused by neglect or abuse in accordance with the Department's regulations on lease provisions..

3691: Other Revenue – Retained: This account should be credited with certain miscellaneous revenue to be retained by the LHA, and which is not used to reduce the amount of operating subsidy the LHA is due. The most common examples for this account is receipts for the rental of roof antennas to cell phone providers and net meter credits earned on electricity bills from Net Meter Power Purchase Agreements (PPA's). Generally, surplus LHAs may retain 100% of these savings and deficit LHAs may retain 25% of the savings, with the 75% balance used to offset its need for operating subsidy. However, for the period 7/1/16 through 6/30/20, all deficit LHAs may keep 100% of the net meter credit savings, while they can keep 50% effective 7/1/2020.

3692: Other Revenue - Operating Reserves: This account should be credited with funds that LHAs plan to utilize from their operating reserve accounts in excess of the Allowable Non-Utility Expense Level (ANUEL). To be approvable, LHA must maintain the EOHLC prescribed operating reserve minimum level after deducting the amount budgeted. The only exception to this is when the expenses are for health and safety issues.

3693: Other Revenue – Net Meter: This account should normally be credited with 75% of the total net meter credit savings realized by a deficit LHA, while surplus LHAs with net meter credit savings would enter \$0 here. Savings are calculated as the value of the net meter credits appearing on the LHA's electric bills (or, in some cases, paid in cash to the LHA by their utility company), minus the cost of the payments made to the solar power developer under their Power Purchase Agreement (PPA). Deficit LHAs normally may retain 25% of the savings. That amount should be included as Other Revenue – Retained on line #3691. However, please note that for the period 7/1/16 through 6/30/20 all LHAs may retain 100% of their total net meter credit savings, and should report those savings as Other Revenue – Retained on line #3691. LHAs can keep 50% of savings effective 7/1/2020.

3801: Operating Subsidy – EOHLC (400-1): This account represents all state-funded operating subsidy to be received and or to be earned for the fiscal year. At the end of each fiscal year, this account will be adjusted in the operating statement to equal the actual subsidy earned by the LHA.

3802: Operating Subsidy – MRVP/AHVP Landlords:

The credit balance in this account represents the anticipated total receipts from EOHLC during the fiscal year for housing assistance payments to landlords. At the end of each fiscal year this account will be adjusted to equal the actual subsidy earned.

3920: Gain/Loss from Sale or Disposition of Property (Capitalized or Non-Capitalized): The debit or credit balance of this account represents the following items: a) Cash proceeds from the sale of property that was either: 1) non-capitalized; or 2) capitalized and has been fully depreciated, and b) Realized gain or loss from the sale or disposition of capitalized property that has not been fully depreciated.

4110: Administrative Salaries: This account should be charged with the gross salaries of LHA personnel engaged in administrative duties and in the supervision, planning, and direction of maintenance activities and operating services during the operations period. It should include the salaries of the executive director, assistant executive director, accountants, accounting clerks, clerks, secretaries, project managers, management aides, purchasing agents, engineers, draftsmen, maintenance superintendents, and all other employees assigned to administrative duties.

4120: Compensated Absences: The debit balance in this account represents the actual cost incurred during the fiscal year for vacation, paid holidays, vested sick leave and earned compensatory time. This account includes both the direct compensated absences cost and associated employer payroll expenses (employment taxes, pension cost, etc.).

4130: Legal Expense: This account should be charged with retainers and fees paid to attorneys for legal services relating to the operation of the projects.

4140: Compensation to Authority Members: A local authority may compensate its members for performance of their duties and such other services as they may render to the authority in connection with its Chapter 200 development(s). Compensation for any other program is not authorized. Because of this, LHAs must base such compensation only on the actual rent receipts for these developments plus a prorated share of other operating receipts of funds on a per unit basis. The precise amount that members may be compensated is defined by statute to a maximum of \$40 per member per day, and \$50 for the chairperson per day. The total of all compensation to all board members is not to exceed two percent (2%) of actual gross income of Chapter 200 developments in any given year, consistent with the approved budget amount. In no case shall the payment of compensation exceed \$12,500 annually for the chairperson, or \$10,000 for any member other than the chairperson. Please note the statute requires the member to perform housing authority business in order to receive compensation.

4150: Travel and Related Expense: Legitimate travel expenses incurred by board members and staff in the discharge of their duties for any **state-aided program** are reimbursable from this account, as consistent with Department policy.

4170: Contractual Accounting Services: Fees for accounting services that are provided routinely and are contracted for on an annual basis. Only accounting services performed on a contractual basis (fee accountant) should be included in this item. Full or part-time LHA accounting staff that provides routine accounting services should be included in Account 4110, Administrative Salaries.

4171: Audit Costs: This account includes the state program's prorated share of audit fees paid to an Independent Public Accountant (IPA). The procurement of an IPA is necessary to satisfy the Federal Government's audit requirements. Costs for these services should be shared with all state and federal programs of LHA. **Audit costs are to be absorbed within the ANUEL.** The new Agreed Upon procedures (AUP) audit costs for state-assisted public housing programs should also be included in this account.

4180: Penalties and Interest: Any expenses incurred from penalties, fees, and interest paid on delinquent accounts shall be included in this line item.

4190: Administrative Other: This account is provided for recording the cost of administrative items for which no specific amount is prescribed in this 4100 group of accounts. It includes, but is not limited to, the cost of such items as: reports and accounting forms; stationery and other office supplies; postage; telephone services; messenger service; rental of office space; advertising for bids; publications; membership dues; collection agency & court costs, training costs; management fees, and fiscal agent fees.

4191: Tenant Organization: LTO Funding by the LHA. Upon request the LHA shall fund all LTOs in a city or town at the annual rate of \$6.00 per state-aided public housing unit occupied or available for occupancy by residents represented by such LTO(s) or an annual total of \$500.00 prorated among all such LTO(s), whichever is more. For more information on the creation and funding of LTOs see 760 CMR 6.09.

Authorities which operate computer learning centers, which are funded by the state consolidated budget or by other sources (which are typically recorded in line #3691 as "Other Revenue Retained", should budget the cost of the centers on this line.

4310: Water: This account should be charged with the cost of water and sewer charges purchased for all purposes.

4320: Electricity: This account should be charged with the total cost of electricity purchased for all purposes. Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off- site solar electricity- generating site. In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased or in some cases receives a direct cash payment from their utility company. Please ensure that the amount charged to this account is the total cost of electricity BEFORE any reductions due to the receipt of net meter credits.

4330: Gas: This account should be charged with the cost of gas (natural, artificial, or liquefied) purchased for all purposes.

4340: Fuel: This account should be charged with the cost of coal, fuel oil, steam purchased, and any other fuels (except electricity and gas) used in connection with Local Housing Authority operation of plants for the heating of space or water supplied to tenants as a part of rent.

4360: Net Meter Utility Debit/Energy Conservation: This account is to be charged with costs incurred for energy conservation measures.

4390: Other Utilities: This account should be charged with the cost of utilities which are not provided for in accounts 4310 through 4360. In addition, for all quarterly or year-end operating statements 9/30/20 or later, and all budgets 6/30/21 or later, please use this line to record the total net meter credits earned as reported in Line 4392, MINUS the Solar Operator Costs reported in Line 4391, with the result expressed as a positive number. For example, if you reported -\$20,000 in Net Meter Utility Credits in Line 4392 and \$15,000 in Solar Operator Costs in Line 4391, you would subtract the \$15,000 reported on Line 4391 from the -\$20,000 reported on Line 4392, and post the remainder of \$5,000 on Line 4360, as a positive number. This number essentially represents the "net" savings the LHA earned from its net meter credit contract.

4391: Solar Operator Costs: Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off-site solar electricity-generating site. The LHA makes regular (usually monthly) payments to the developer for its contracted share of the solar electricity produced by the site. Those payments should be entered in this account.

4392: Net Meter Utility Credit (Negative Amount): As noted in account #4391 above, many LHAs have executed Net Meter Credit Power Purchase Agreements (PPA's). In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased from the developer, which reduces the balance on its electric bill, or, in some cases, the credits are paid in cash to the LHA by the utility company. The total gross amount of the net meter credits that appear on the LHA's utility bills should be carried in this account and entered as a negative number. In cases where credits are paid in cash to the Host LHA, the net balance after paying out the amounts due the participating housing authorities, should also be carried in this account and entered as a negative number.

4410: Maintenance Labor: This account should be charged with the gross salaries and wages, or applicable portions thereof, for LHA personnel engaged in the routine maintenance of the project.

4420: Materials & Supplies: This account should be charged with the cost of materials, supplies, and expendable equipment used in connection with the routine maintenance of the project. This includes the operation and maintenance of automotive and other movable equipment, and the cost of materials, supplies, and expendable equipment used in connection with operating services such as janitorial services, elevator services, extermination of rodents and household pests, and rubbish and garbage collection.

4430: Contract Costs: This account should be charged with contract costs (i.e. the cost of services for labor, materials, and supplies furnished by a firm or by persons other than Local Authority employees) incurred in connection with the routine maintenance of the project, including the maintenance of automotive and other movable equipment. This account should also be charged with contract costs incurred in connection with such operating services as janitorial services, fire alarm and elevator service, extermination of rodents and household pests, rubbish and garbage collection, snow removal, landscape services, oil burner maintenance, etc.

4510: Insurance: Includes the total amount of premiums charged all forms of insurance. Fire and extended coverage, crime, and general liability are handled by EOHLIC on a statewide basis. All other necessary insurance policies include: Workers' Compensation, boiler, vehicle liability and owner, etc.

4520: Payments in Lieu of Taxes:

This account should be charged with all payments in lieu of taxes accruing to a municipality or other local taxing body.

4540: Employee Benefits: This account should be charged with local housing authority contributions to employee benefit plans such as pension, retirement, and health and welfare plans. It should also be charged with administrative expenses paid to the State or other public agencies in connection with a retirement plan, if such payment is required by State Law, and with Trustee's fees paid in connection with a private retirement plan, if such payment is required under the retirement plan contract.

Employee benefits are based upon a given percentage of the total payroll; therefore, the total amount approved in this account will be based on the approved budgeted salaries representing the state's fair share.

4541: Employee Benefits - GASB 45: This line covers "Other Post-Employment Benefits" (OPEB). Of the total benefits offered by employers to attract and retain qualified employees, some benefits, including salaries and active-employee healthcare are taken while the employees are in active service, whereas other benefits, including post-employment healthcare and other OPEB are taken after the employees' services have ended. Nevertheless, both types of benefits constitute compensation for employee services. In accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

4542: Pension Expense – GASB 68: The primary objective of GASB 68 Statement is to improve accounting and financial reporting for pension costs. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. As with account 4541 above, in accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

4570: Collection Loss: The balance in this account represents the estimated expense to cover unexpected losses for tenant rents. Note: Do not include losses from fraud/retroactive balances here. Report them in Account 4571 – Collection Loss – Fraud/Retroactive.

4571: Collection Loss – Fraud/Retroactive: The balance in this account represents the estimated expense to cover unexpected losses for tenant rents due to unreported income, i.e. fraud/retroactive balances.

4580: Interest Expense: The debit balance in this account represents the interest expense paid and accrued on loans and notes payable. This debt can be from operating borrowings or capital borrowings.

4590: Other General Expense: This account represents the cost of all items of general expenses for which no specific account is prescribed in the general group of accounts.

4610: Extraordinary Maintenance – Non-Capitalized: This account should be debited with all *costs* (labor, materials and supplies, expendable equipment (such as many tools or routine repair parts), and contract work) of repairs, replacements (but not replacements of non-expendable equipment), and rehabilitation of such a substantial nature that the work is clearly not a part of the routine maintenance and operating program. The items charged to this account should not increase the useful life or value of the asset being repaired. These items are not capitalized and are not added as an increase to fixed assets at the time of completion. Nor are these items depreciated. An example of this would be scheduled repainting of apartments.

4611: Equipment Purchases – Non-Capitalized: This account should be debited with the costs of equipment that does not meet the LHA's criteria for capitalization. Because these items are being expended when paid, they should not be categorized as a fixed asset and therefore will not be depreciated. These items include stoves, refrigerators, small tools, most computers and software, etc.

The budget is a planning tool and as our portfolio ages it is essential that LHAs evaluate their properties annually and plan for extraordinary maintenance. To that end EOHLIC very strongly recommends that for all 400-1 operating budgets, depending on the age of the portfolio and condition, LHAs spend between \$100 and \$500 a year per unit in Extraordinary Maintenance, Equipment Purchases, Replacement of Equipment, and Betterments & Additions to ensure that the aging public housing stock is preserved.

4715: Housing Assistance Payments: This account should be debited with all housing assistance payments paid to landlords for the MRVP program on a monthly basis.

4801: Depreciation Expense: This account should be debited with annual fixed asset depreciation expenses as determined by the LHA's capitalization policy.

7520: Replacement of Equipment – Capitalized: This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment purchased as a replacement of equipment of substantially the same kind. These items, such as vehicles, computers, or furniture, meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life.

7540: Betterments & Additions – Capitalized: This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment and major non-routine repairs that are classified as a betterment or addition. These items meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life of the asset. Examples are: major roof replacement, structural repairs such as siding, or major paving work.

In accordance with GAAP accounting, inventory purchases (Replacement of Equipment and Betterments & Additions) are distinguished between capitalized and non-capitalized items. Any inventory or equipment purchase greater than \$5,000 is required by EOHLIC to be capitalized, inventoried and depreciated. Any inventory or equipment purchase costing \$1,000 to \$4,999 should be inventoried by LHA staff for control purposes only but is not subject to capitalization or depreciation, it is, however, required to be expensed when the items are paid for. An LHA's inventory listing should include both capitalized and non-capitalized items of \$1,000 and more, as well as all refrigerators and stoves of any value. All items that appear on the inventory listing should be tagged with a unique identification number, and all refrigerators and stoves (regardless of value) should be tagged. LHAs may adopt a capitalization policy that capitalizes inventory purchases at a lesser amount than the \$5,000 requirement (i.e. \$1,000 - \$4,999); however, no capitalization policy can have an amount higher than \$5,000. Any inventory or equipment purchases costing \$0 to \$999 are to be expensed when paid for.

Narrative Responses to the Performance Management Review (PMR) Findings

PMRs are conducted for most LHAs on a biennial basis. This year there is no PMR record for this Housing Authority.

Explanation of PMR Criteria Ratings

CRITERION	DESCRIPTION
Management	
Occupancy Rate	<p>The rating is calculated using the following formula: (Total Number of Occupied units on Monthly Report divided by (Total Number of Units Minus Units that Received a Waiver Minus Number of Units Vacant less than 30 days on Monthly Report)</p> <ul style="list-style-type: none"> • “No Findings” : Occupancy Rate is at or above 98% • Operational Guidance: Occupancy rate is at 95% up to 97.9% • Corrective Action: Adjusted occupancy rate is less than 95%
Tenant Accounts Receivable (TAR)	<p>This criterion calculates the percentage of uncollected rent and related charges owed by starting with the amount reported by the LHA, as uncollected balances for the TAR (Account 1122 from the Balance Sheet) minus Normal Repayment Agreements* divided by Shelter (Tenant) Rent (account 3110 from the Operating Statement)</p> <ul style="list-style-type: none"> • “No Findings” : At or below 2% • “Operational Guidance”: More than 2% , but less than 5% • “Corrective Action”: 5% or more

CRITERION	DESCRIPTION
Financial	
Adjusted Net Income	<p>The Adjusted Net Income criterion calculation starts with an LHA’s Net Income and subtracts Depreciation, GASB 45 (Retirement Costs), GASB 68 (Retirement Costs), Extraordinary Maintenance (maintenance expense outside of routine/ordinary expenses), and Equipment Purchases – Non Capitalized. This Adjusted Net Income amount is then divided by the Total Expenses of the LHA. If this Adjusted Net Income amount is positive, it means underspending and if it is negative it means overspending.</p> <p>Underspending Rating:</p> <ul style="list-style-type: none"> • “No Findings” : 0 to 9.9% • “Operational Guidance”: 10 to 14.9% • “Corrective Action”: 15% or higher <p>Overspending Rating:</p> <ul style="list-style-type: none"> • “No Findings” : 0 to -4.9% • “Operational Guidance”: -5% to -9.9% • “Corrective Action”: -10% or below

Glossary

ADA: Americans with Disabilities Act. Often used as shorthand for accessibility related issues or improvements.

AHVP: Alternative Housing Voucher Program

Alternative Housing Voucher Program provides rental vouchers to disabled applicants who are not elderly and who have been determined eligible for Chapter 667 (elderly and disabled) housing.

Allowable Non-Utility Expense Level (ANUEL) is the amount of non-utility expense allowed for each local housing authority based upon the type(s) of housing programs administered.

ANUEL: Allowable Non-Utility Expense Level

AP: Annual Plan

Annual Plan: A document prepared by each Local Housing Authority, incorporating the Capital Improvement Plan (CIP), Maintenance and Repair Plan, Budget, responses to the Performance Management Review, and other elements.

Cap Share is the amount of Formula Funding spending approved by EOHLC for each year.

Capital Funds: Funds provided by EOHLC to an LHA for the modernization and preservation of state-aided public housing, including Formula Funds and Special Capital Funds.

Capital Needs Assessment, similar to the CIP, often used for developments in the Section 8 New Construction/Substantial Rehabilitation program. Such developments are generally not eligible for state capital funds and therefore do not participate in the CIP process. However, to track their ongoing capital needs and plan for construction projects to address those needs, they often conduct a CNA to determine when building systems will wear out and need to be replaced, and what replacement will cost, so they can plan to ensure that the necessary funding will be available

Capital Projects are projects that add significant value to an asset or replace building systems or components. Project cost must be greater than \$1000.

CIMS a web-based software system used for creating CIP's and Annual Plans. For the CIP, the CIMS program allows the LHA to prioritize, select and schedule projects, assign funding sources and direct project spending to specific fiscal years to create a CIP that is consistent with the LHA's FF award amount and FF cap shares, plus any additional funding resources the LHA has identified. The LHA submits its CIP and EOHLC conducts its review of the LHA's CIP in CIMS. For the Annual Plan CIMS imports data from other EOHLC systems and combines that with data entered by the LHA.

CIP: A Capital Improvement Plan (CIP) is a five (5) year plan which identifies capital projects, provides a planning scope, schedule and budget for each capital project and identifies options for financing and implementing the plan. The contents of a CIP are limited to available resources. An approved CIP is required in order to receive Formula Funds.

CNA: Capital Needs Assessment

CPS EOHLC's transparent Web-based capital planning system that catalogues the condition of every building and site in the statewide public housing portfolio, providing LHAs with detailed technical information to make strategic long-term capital investments. It includes a Facility Condition Index (FCI) for every development that compares the value of expired components of a development relative to its replacement cost.

Deferred Maintenance is maintenance, upgrades, or repairs that are deferred to a future budget cycle or postponed for some other reason. Sometimes it is referred to as extraordinary maintenance.

Deficit housing authority: a housing authority whose income (mainly from rent) does not cover all its normal operating costs in its approved operating budget, and which therefore operates at a deficit and requires operating subsidy from EOHLC.

EOHLC: Massachusetts Executive Office of Housing and Livable Communities

Extraordinary Maintenance: see the description for budget line 4610 in the Explanation of Budget Accounts in the Budget Section of this Annual Plan.

FF: Formula Funding

Formula Funding is state bond funding allocated to each LHA according to the condition (needs) of its portfolio in comparison to the entire state-aided public housing portfolio.

FYE: Fiscal Year End

HHA Administrative Fee is the fee paid to an HHA from the RCAT Program budget.

HHA: Host Housing Authority for the RCAT program.

Host Housing Authority (HHA). An LHA selected by the Department to employ and oversee an RCAT.

HUD: U.S. Department of Housing and Urban Development

LHA: Local Housing Authority

LTO: Local Tenants Organization

Management and Occupancy Report: This is an annual HUD review process that is used to evaluate the performance of developments in various HUD housing programs, including the Section 8 New Construction/Substantial Rehabilitation program, which some LHAs operate. It is similar to the state PMR process in that it evaluates LHA performance on variety of financial, housing quality, and other standards

Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals.

MOR: Management and Occupancy Report

MRVP: Massachusetts Rental Voucher Program's annual review of each housing authority's performance. It pulls together data on the authority's occupancy rates, tenant accounts receivables, accounts payable, budget variance, operating reserve, capital improvement plan submission, capital spending, annual inspections and work order and maintenance systems to identify and address areas of strength and areas for development. Its goal is to allow EOHLC and the LHA to take a deep dive into the data, lift up best practices, and work together towards improving operations voucher Program.

PMR: Performance Management Review

RCAT: Regional Capital Assistance Team

Regional Capital Assistance Team: One of three organizations employed at HHAs designated by the Department to carry out the RCAT Program.

Sec.8 NC/SR (or S8NCSR): Section 8 New Construction and Substantial Rehabilitation

Section 8 New Construction and Substantial Rehabilitation (Sec.8 NC/SR): This term refers to a federal HUD housing program operated at a small number of state public housing developments whose construction was funded by state grants, but whose ongoing operating costs are supported by project-based subsidies from HUD's federal Section 8 program, rather than from state public housing operating funds.

Special Awards: In addition to allocations to each LHA, EOHLC has created limited set aside funds to provide for extreme emergency or code compliance needs which are beyond the capacity of an LHA's current FF balance.

Surplus housing authority: a housing authority whose income (mainly from rent) covers all its normal operating costs in its approved operating budget, and which therefore operates at a surplus and does not require operating subsidy from EOHLC.

Resident Surveys – Background

Since 2016 DHCD has been working with the Center for Survey Research (CSR) at the University of Massachusetts Boston to survey residents in the state public housing units it oversees. The surveys are confidential, mailed directly to residents, and returned to CSR by mail (or, starting in 2019, completed on-line). CSR surveys residents of elderly/disabled units (also known as Chapter 667) and family units (also known as Chapter 200 and Chapter 705).

During each round all units are mailed surveys, with one exception: in the case of the twelve housing authorities with more than 225 c.200 family units, a randomly selected group of 225 units was surveyed at each housing authority. This group was determined to be large enough to generate statistically useful results. In both rounds, responses from c.200 and c.705 residents are always combined.

Round One Surveys (2016 – 2018)

In Round One of the surveys, CSR surveyed residents of elderly/disabled units (c.667) in three groups in the Fall of 2016, 2017 and 2018. CSR surveyed residents of family units (c.705 and c.200) in the Spring of 2016. (Note: there are many more c.667 units, so they were broken down into three groups).

Round Two Surveys (2019 – 2022)

Round Two of the surveys began in 2019. CSR surveyed about one-third of the elderly/disabled units in Fall 2019, Fall 2021, and Fall 2022. CSR surveyed all family units in Fall 2020.

Round Three Surveys (2023 – 2027)

Round Three of the surveys began in 2023. CSR surveyed about one-third of the elderly/disabled units and one-third of family units in Fall 2023.

Health & Safety Deficiencies

Inspection reports were provided to the LHA at the time of the EOHLC site visit. Health and safety deficiencies were identified during the PMR Inspection. These items must be completed or initiated within 48 hours. Following completion of these health and safety deficiencies, the Executive Director must login to the FMS software application and certify, by electronic signature, that all health and safety deficiencies have been completed. Please contact your assigned FMS for further assistance.
